

DRAKESOL SPECIALTY SOLVENTS

Calumet produces a full line of Aliphatic Solvents. Our DRAKESOL products are specialty aliphatic solvents with low aromatics and optimal boiling ranges that are suitable for use in a wide variety of FDA applications.

Our unique capabilities allow us to offer custom solvents, which are blended to order, and available in a variety of containers including drums, totes, flexi-bags, iso-containers, truckload, and railcar.

Final determination of the suitability of any information or material for the use contemplated, the name of use and whether there is any infringement of patents is the sole responsibility of the user.

Calumet's sampling and testing procedures in effect at the time of production will be used for certification testing. Results may be based on tank certification, manufacturing data, periodic testing and/or most recent product restock. Typical values only represent the values one would expect if the property were tested in our laboratories with our test methods on the specified date. Some product properties are not frequently measured, and accordingly typical values are not based on a statistically relevant number of tests.
