## Melamine Statement

To Whom It May Concern:

Calumet Refining LLC certifies that **melamine is not present** in its USP-NF grade mineral oil products. Melamine is **not added** nor used as a processing aid during the production of these materials.

- **Incoming raw materials** are not routinely tested for melamine, as it is not expected to be present.
- **Finished products** are not tested on a regular basis for melamine, as this substance has never been detected in past product testing.

For further questions, please contact Calumet's Product Support Team at [technical@clmt.com](mailto:technical@clmt.com).

Best Regards,

Lynn Massad  
Technical Market Development Manager
